4. Outreach to Undocumented Kids – Joel Diringer

Coming in May of 2016, all children are eligible for coverage regardless of citizenship. Currently, restricted Medi-Cal is available and there was some discussion regarding the incentive to get kids on restricted coverage before May, so that they may more easily glide in to coverage later in the year.

Joel has obtained a box of brochures from the California Endowment to solicit kids getting on coverage now and will provide a pdf of poster per request. The brochures will be available at the Public Health Department through Michelle Shoresman and the MISP staff. Joel will also share a PDF poster he also received.

5. Behavioral Health Integration Project Update – Joel Diringer

Joel discussed the B-HIP program and its integration of primary care, substance abuse and mental health. This program is training a cohort of peer navigators and sponsoring continuing education forums. TMHA, 50Now, Los Promadores and others are collecting utilization and capacity data.

6. Roundtable and Other Business

An insurance agent in attendance, discussed an issue that he had experienced recently with a client he was trying to assist with Covered CA insurance. The system was not allowing enrollment in Covered CA because they were believed to be eligible for Medi-Cal. The group suggested that he contact Pati Garcia (DSS) for assistance.

Next Meeting: To be determined based on need; 3 – 5pm @ SLO County Library
